Amma Resonance Healing Foundation

Using Resonance for AIDS in Developing Countries

PC1 for HIV/AIDS is safe, cheap and effective

PC1 for AIDS

The design of PC1 is based on the totality of the symptoms of HIV/AIDS and induces a healing response.

The clinical results of this new AIDS treatment have been observed in Africa since 2001 - Rwanda, The Congo, Cameroon, South Africa, Swaziland, Uganda, Malawi, Kenya, Central African Republic, Ethiopia, Ghana etc. Also from India, Sri Lanka and the Philippines positive reports have been received. A study in Malawi (2004) and another one in the Central African Republic (2006) showed significant improvement of all complaints of AIDS.

AIDS patient before starting treatment with PC1

Four months later no more symptoms (Bangui 2006)

One Resonance for all AIDS-patients

- that is cheap (1 euro per month)
- takes little skills to prescribe
- requires no strict protocol
- can be stopped/started without consequences
- can easily be distributed
- gives people their lives back quickly
- is without side-effects
- is safe for pregnant women
- as well as for babies and the elderly
- can already be used in early stages
- or alongside ARVs
- and ... is highly effective

The intellectual property rights of the AIDS medicine PC1 are owned by the ARHF. PC1 is provided by the foundation for research and treatment at a not-for-profit basis.
